

MARTIN D. RIECK TROPHY

First to Finish, Multihull

Given in 1998 by Harken to honor fellow colleague and renowned multihull racer Martin D Rieck, the trophy is awarded to the first multihull yacht to cross the finish line at Mackinac Island. From 2015-2017, first to finish award were for the combined monohull/multihull fleets, but beginning in 2018, this trophy was returned to its original purpose.

Although first awarded in 1999, the list of winners includes information on Steve Fossett's remarkable record run with Stars and Stripes in 1998. It stands as the fastest time to the Island by any boat and is more than 4 hours faster than the monohull record set by Roy Disney's Pyewacket.
